- A sand & cement fillet to prevent water seeping beneath panels
- A timber weather bar to prevent water entering under the Garden Sheds door.

Specify your Garden Shed size requirements and leave the rest to us - our high service levels and professional Garden Shed installers provide you with a building of outstanding value!

**DON'T MISS OUT ON THESE FANTASTIC MAINTENANCE FREE SHEDS AT OUTSTANDING OFFER PRICES**

### **What do you get**

- 10 year structural guarantee, giving you peace of mind.
- 112mm black PVCu guttering removes excess rainwater through a downpipe and shoe
- Centurion delivery and installation, using a modern vehicle fleet and installed by fully trained erectors to ensure the highest standards.
- Centurion's fibre cement ridge minimises condensation. Most other manufacturers use a flat steel capping with a potential condensation risk
- Four point secure locking provides double the protection compared to standard doors. Key operated secure handle makes it virtually impossible to break the lock on the door. 10,000 different key combinations for increased security.
- Maintenance-free fully-finished white powder coated galvanised steel Georgian style up and over door - an up market design for a top of the range Garden Shed.
- Preservative treated timber fascias for attractive appearance
- Preservative treated timber framed, fixed, glazed window.
- Real brick front posts available in four finishes to give the appearance of a traditionally built Garden Shed when looking from the front. Choose either Autumn Red, Warwick Red, Southern Stock or Reclaimed.
- Sand and cement fillet to internal perimeter walls helps prevent water entering beneath panels.
- Spar aggregate finished concrete panels, made in our automated plant for consistent quality. With steel reinforcement for greater strength, mastic sealed on the inside. The Spar finish is designed to blend in with most local environments.
- White, polyester powder-coated galvanised steel door. 0.812 (2'8") wide featuring 3 point locking with 10,000 different key combinations for increased security.
- Steel roof trusses for increased strength, factory primed

- The best materials - For example our galvanised steel bolts don't bend during installation as they're 1/3 thicker than most competitors' providing longer life, greater strength and stability.
- Unlike most other Garden Shed manufacturers, with Centurion, the wider the Garden Shed, the wider the door - Easier access, maximising available space. No extra charge!
- Fully-finished, white polyester powder coated galvanised steel fully retractable up and over door a 10-year guarantee.
